- Shopware 5
- GitHub
- User Stories & agile working
- Basic Scrum Knowledge
- Responsive Design & UX
- Basic Figma skills
- Texting

Career

FRONTEND WEBDEVELOPER

Boot camp at neuefische gmbh

Apr 22 - Jul 22

I took the chance to enhance my preexisting IT-Skills in this boot camp. In the boot camp I learned ReactJS, GitHub, agile working, the fundamentals of scrum, how to write user stories and much more. It was a tough, but also very rewarding experience.

SELFEMPLOYMENT

Handcrafted Shops

May 2020 - current

In the beginning of Covid, my previous job was sized down to a mini-job and I took the chance to get self-employed. I mostly did troubleshooting in existing shops, set up a few minor design changes, installed and updated Shopware 5 Shops for my customers.

E-COMMERCE EMPLOYEE

BN-Pipes GmbH

Sep 16 - current

In this position, I administered and maintained the online shop of the company. I was mostly responsibly for administration, some minor design changes, fixing bugs and everything IT related in the company.

PREVIOUS EXPERIENCE

2006 - 2016

After graduating from middle school, I achieved a degree as biological-technical assistant in 2009. This was followed by various jobs in retail and production. I also achieved the technical college entrance qualification in 2014. I gained lots of experience in variouss fields.
